

# Training and Assessment Professionals

*Presents*

## The Health Insurance Portability and Accountability Act ( H.I.P.A.A)

Training and Assessment Professionals (TAP), a leader in Healthcare Education for more than ten years has created the most comprehensive H.I.P.A.A. program regarding the privacy act available today. Working with a number of Healthcare workers with knowledge of the privacy act, we have produced a cost effective, people-friendly program that is accessible on the Internet.

At the completion of this program, the Participant will

- Understand Privacy and Confidentiality as defined by H.I.P.A.A.
- Understand examples of Patient Privacy protection.
- Be able to define Protected Health Information (PHI).
- Have a basic understanding of the role of the Privacy Administrator.

As a result of the H.I.P.A.A. regulations, the majority of people working in Healthcare must be compliant by April 14<sup>th</sup> 2003. The penalty for not being compliant under Federal law can range from a fine of up to two hundred and fifty thousand (250,000) dollars and/or up to ten (10) years in prison for each violation.

Training and Assessment Professionals can bring this course to your place of business with a seamless link to either your Internet or your Intranet. We will provide the content and documentation, in addition to a Certificate of Completion for each completed course. Corporate and site rates are available.

Organizations can use this cost effective program to ensure all employees understand the privacy rules under H.I.P.A.A. They can be confident they have knowledge of the same situations covered under the Regulations, and how they will affect everyone in the healthcare industry.

For more information on how [Training and Assessment Professionals](http://www.taptrain.com/) can help facilitate your H.I.P.A.A. needs, contact us at (254) 698 2304 or email [hipaa@taptrain.com](mailto:hipaa@taptrain.com). Visit our web site at <http://www.taptrain.com/>.
